

FLEET'S HOSPITAL SHIP IS DOING GREAT WORK

Sick Receive Attention and
Treatment Not Possible on
Board War Vessels.

SAN FRANCISCO, April 7.—Direct from Magdalena bay, with 152 sick from the battleship fleet on board, the hospital ship Relief, in command of Surgeon C. F. Stokes of the United States navy, completed her first voyage this morning, when she dropped anchor in this harbor. Later in the day she proceeded to the Mare Island navy yard.

When seen on board the Relief, Commander Stokes said:

"The need of a hospital ship has long been apparent in naval circles, and when one takes into consideration the good results obtained, he is bound to admit that no mistake was made in assigning the Relief for duty with the Atlantic fleet."

"I give my orders to the sailing master and he follows them out to the letter. As a result there is not the least trouble on board and matters go along without a hitch. Once the Relief has discharged her patients at Mare Island, where they are to be taken care of at the hospital, the vessel will rejoin the fleet at San Diego."

Best of Treatment Given.

"The sick on board have been given the best of treatment, something which would be impossible on one of the big ships, where the interests of so many men must be looked after. We have at present a number of patients, who are to be operated on for appendicitis, others suffering from tuberculosis and others insane. In all one hundred and fifty sick are now being cared for on board and if necessary we could accommodate fifty more. We have not a single patient, but on the other hand a great improvement in the condition of all is noted."

As the Relief lay at anchor in the stream many of the patients made their way to the quarter deck, where they enjoyed the warm sunshine. Men from every vessel from the big fleet arrived on the hospital ship and all are anxious to return. While at Magdalena bay the doctors on the hospital ship were kept busy every minute of the time caring for the sick who came aboard from the Atlantic squadron. Ten operations were performed during the stay in the south. In handling the patients on board the Relief, Surgeon Stokes is assisted by Surgeons A. W. Dunbar, Raymond Spear, H. F. Strine, W. F. Haller, J. Deane and fifty-six men from the hospital ship corps.

If you have not, you do not know how perfect a rendition of sound can be made by mechanical means.

You owe it to yourself to go to the nearest dealer and see and hear the Edison, and especially to ask for the new model with the big horn. A book about it will be mailed free, on request, to any address.
